STUDENT SPOTLIGHT

Reece Ke

Reece is a creative and multi-talented student with a standout passion for the arts. He has demonstrated exceptional artistic skill, even winning an international art competition, which speaks to both his talent and dedication. Outside of the art room, Reece is equally active—he enjoys playing lacrosse, practices karate alongside Royce, and brings great energy to any group he's part of.

He's also known for his warm personality and strong social presence—well-liked and respected by his peers. Beyond his visual talents, Reece also has a beautiful singing voice and a real love for music, often sharing his gift with enthusiasm and joy. Altogether, Reece is a well-rounded, creative, and dynamic individual who shines in everything he does.

Parents message

Reece has always been a calm and chill kid since he was very young. He loves learning and sports, and he's the source of joy at home and the funny one in class. Naturally humorous, cheerful, and always ready to help others, Reece has long been one of the most well-liked students at school. His favorite sport is lacrosse, and he often earns the title of MVP on his team. Lately, he's fallen in love with badminton and practices it every day.

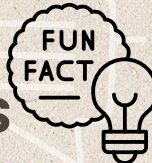

Reece is especially talented in drawing—he has won the school's Christmas card design competition three years in a row, and he's also received several prestigious awards in China. He is the leader of the school's FPS (Future Problem Solving) team, and we truly hope he will also shine in public speaking and debate!

Student Tips for Success

- 
- Time management is one of the most important skills you can build. Here's how to make it work for you:
- Use a planner or calendar to map out your week
 - Prioritize what needs to be done each day
 - Avoid multitasking—focus on one thing at a time
 - Take breaks to avoid burnout
 - Ask for help when needed
 - The most successful students plan ahead, stay organized, and take control of their time. Start small and build the habit!

Fun Facts & Challenges

Debate Helps Your Brain

Studies show that students involved in debate perform better in critical thinking, reading comprehension, and standardized tests. It literally strengthens your brain's ability to process complex ideas!

Family Debate Showdown: Parent vs. Kid!

Topic:

- 
- Would life be better if humans had tails?

Each team (Parent vs. Kid) gets:

- 30 seconds to prep
- 1 minute to argue
- 30 seconds for a final "mic drop" statement
